

Romaine logo

Hello _____

As a loyal customer to Romaine Electric your company has been hand selected to receive this complimentary monthly issue of the "ERA Exchange" magazine. Here at Romaine not only do we want to serve your part and unit needs but we also want you to be well informed with all of the latest technical information about diagnosis and rebuilding of today's rotating electrical units.

The Electrical Rebuilder's Association formed in 2001 has evolved to be the electrical rebuilding industries leading provider of technical information and data. Not only do they publish this monthly magazine with high resolution pictures and tech articles but also maintain a huge website that archives all of this tech data and much more.

We here at Romaine would like to invite you to have a look at their website as the ERA offers a 30 day trial membership access to the site. You can access the free trial membership yourself at www.electricalrebuilders.org or by calling Michele at the ERA office (636) 584-7400.

The ERA also offers to its members a Tech Help Hotline that offers immediate tech help to your shop.

Please take a few moments to read the magazine then log on to their website and take advantage of the 30 day offer!

We believe that "Knowledge is Powerful" Know where to get the info! Know who to call! Know how to fix it! Join the ERA! Be Powerful!

Thank you for your time,

Nick Staub
