

Excerpts from "Plain Talk: Your Voice Matters," published in the March 2004 issue of the *Electrical Rebuilder's Exchange*.

"...there just aren't enough of us paying attention."

"He [H. Ross Perot] said if NAFTA passed we would lose jobs and companies so fast that all we would hear is this 'giant sucking sound' as they left the country."

"America really loved those unbeatable Wal-Mart prices on Chinese [Most Favored Nation trade status] goodies. It is tragic that America is so dumbed-down it hasn't realized what the real cost of those consumer goods are."

"When the supply of labor goes up [President Bush's Immigration Reform Package], its price (wages) goes down."

"FTAA stands for Free Trade Area of the Americas. This is nothing more than a super expansion of the NAFTA agreement except this one will include all of Central and South America."

"Contact your Congressman and demand that he oppose any amnesty proposal...Learn more about the...FTAA, the deceptively named program to create a hemisphere-spanning socialist super state...go to www.stoptheftaa.org."
