Annual Planning Meeting Set

The annual planning meeting for the spring 2007 Electrical Rebuilder's Association Trade Show has been set for Saturday, August 26 in Portland, Ore. The meeting is scheduled from 8 am to 5 pm at the Holiday Inn Portland Airport Hotel and Convention Center, where the show will also be held. Alan Melton of Northwest Regulator Supply will host dinner and a boat ride for attendees on Saturday evening.

Agenda items will include confirmation of the show dates, speakers, promotional efforts, and special events.

Show promoter Polly Shea said she is looking forward to coming to the West Coast after more than a decade.

"The *Exchange* has hosted only one of its 18 shows on the West Coast in San Diego in 1996. We're very excited about finally reaching rebuilders in the Northwest," she said. "We greatly appreciate the consideration of those who donate time and resources to attend the planning meetings. They have a large role in shaping the trade show each year and we are very grateful for their support."
