For many years now, electrical rebuilding has been a game of survival. We are again providing you a list of some of those survivors...139 of them.

It's always satisfying to produce the annual buyer's guide for the rebuilder. We sure hope you will use it, and that you will spread your business around.

With our respect and admiration,
The Electrical Rebuilder's Exchange

e-mail: info@asr-reman.com
Web site: www.asr-reman.com
Parts/Products: Computer software for rebuilders. ASR-REMAN and ASR-AutoData, now in our twenty-third year. Software that will help you track and control profits, sales, inventory, cores, pricing, vendor costs. Application look-up, cross reference, bills of material, inventory tracking/control, invoicing, statements, aged trial balance, sales history, usage, profit margin by account and by part, multiple pricing levels for parts and customers, purchase order control, inventory value, usage for every unit and component, accurate costing, shop floor control with work orders and BOMs, bar code receive, bar code print, EDI, pictures, and much, much more.
