New Bearing Puller for 24SI Style Rotors

(for use with D158-4035-102 Jiffy Bearing Puller and 0058-2602 or 0058-2604 2-Jaw Pullers)

M858-0100 Pusher & Plate with
M858-0100-203 Insert for 202 Bearing
(pictured below)

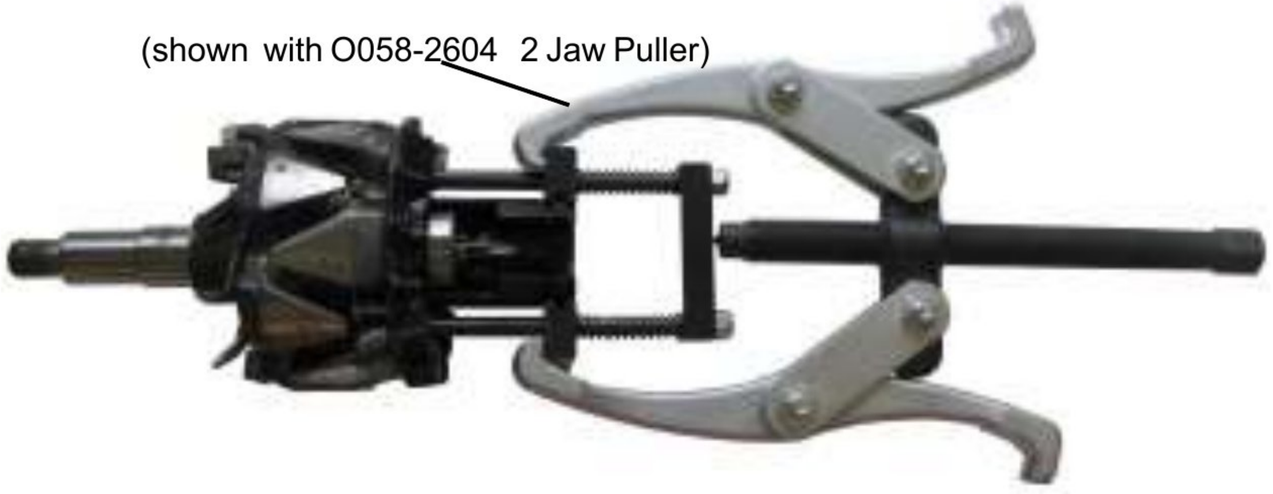

24SI Rotor

Features:

- Fits 24SI and other like rotors with the same size bearing (35MM OD)
- Operates by holding the bearing and pushing the rotor out
- Can be used with a jaw puller or arbor press as well
- All steel construction
- Easy operation, no set screws or nuts to adjust
- Simple slide the tooling behind the bearing and slinger and pull off over the slip ring by pushing the rotor out of the bearing
- Old Style Jiffy Pullers will have to be modified with a wider opening on the front end.

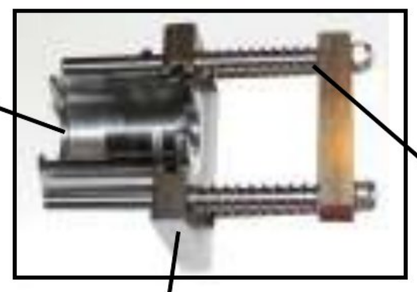

Options:

M858-0100	Pusher & Plate - (Includes M858-0100-2 Push Frame and M858-0100-1 Basic Plate)	$55.00
M858-0100-202	Insert for 202 Brg 24SI & many others with 35MM OD	$70.00
